DUMP TRACKER NEWS

MARCH 2013

Spring Focus: MEDIUM & HEAVY DUTY DUMP BODIES

Spring is FINALLY Here!

J-Craft® has a full line of equipment ready to meet your demanding Spring and Summer needs. Whether it's road construction, storm debris clean-up, or those last pesky remnants of Old Man Winter, J-Craft has what you need to get the job done!

Medium Duty Dump Bodies

J-Craft's Contractor Medium Duty Dump Bodies offer features you need for the busy season ahead. With heavy duty floors, tailgate, single or split fold sides and a robust structural understructure, the J-Craft Contractor Dump Body was designed and built to handle all the

demanding tasks that can be thrown at it day-in and day-out. With many options and accessories available for general contractors, landscapers, utility or maintenance workers demanding jobs, J-Craft's Medium Duty Dump Bodies are the solution you've been looking for!

Heavy Duty Dump Bodies - Built For You!

Whether hauling salt, asphalt, gravel, rock, rip-rap or other material, J-Craft will design, build and install the most durable and dependable heavy duty dump body for your work requirements. The J-Craft Square Body features a flat underside, rugged boxed sections, and optional interior liners that you can use to haul

everything from salt/sand mixtures to broken concrete with confidence.

If a square body is not what you are looking for, J-Craft Elliptical Dump Body packages provide extreme durability, easy discharge of materials and exceptional clean-out making them a great choice for hauling salt, gravel and large stone.

Material Master™ Makes a Difference

As an added feature, J-Craft's Material Master™ Tailgate, with adjustable opening independently controlled automatic metering gates, allows you to direct material where you need it from the safety of the cab or sides of tailgate. Add versatility and convenience to your heavy

duty dump body and increase your opportunities with a Material Control Gate from J-Craft.

NEW PARALLEL LIFT PLOW FROM HENKE GETTING GREAT REVIEWS!

According to J-Craft Sales Manager Don Gorny, J-Craft is now offering the new parallel lift plow from Henke and customers are very excited about the plow's design and functionality. He said, "The new parallel lift plow remains parallel to the ground in transport. It doesn't bounce around. It can also be removed from the truck completely, leaving only a

flat plate. This means less weight and a nice clean front when the plow is removed. For operations, customers like the plow because you can apply a little down pressure for extra scrapping when necessary. Plus it removes and installs easily!"

Henke supplies J-Craft with front snowplows, wing snowplows and underbody scrapers for J-Craft's Class A municipal plow line. Henke has been manufacturing quality products for over 90 years and continues to be recognized today as an industry leader. J-Craft also stocks Henke replacement parts, providing added value for municipal customers.
