**CRAFTSMANSHIP
FOR THE LONG HAUL**

Innovative Snow & Ice Solutions Since 197

More than just a well designed and manufactured dump body, the choices and installation options make the difference. The options available exceed the limits of these pages and your truck work for you.

BODY

Access to body by choosing from several styles of ladders: traditional rigid, folding or slide-away.

Integrated dirt shed on top rails eliminate buildup of material.

Utilize minimum space with stainless hydraulic reservoir.

Several Hoist options to choose from:

- Telescopic with stabilizer
- Roller Combo Underbody Hoist
- J-Craft Underbody Hoist

High 'N Slide™ Multi-Function Tailgate

Patented Design offers Increased Opportunities

- Increase the hauling and delivering abilities of your dump body with the new High 'N Slide tailgate that offers traditional dump-through, sliding and high-lift functionality
- Change from high-lift to sliding with traditional dump through always available with ease utilizing simple mechanical adjustment

Sliding Tailgate offers Versatility

- Control the metering of salt, sand, pea gravel and other materials with a 17.5" maximum sliding height and full-width opening
- Access mulch, sand, asphalt and other materials without raising the dump body when shovel loads are required
- Connect easily with sealing equipment without concern for your tailgate swinging into the equipment

High Lift Tailgate offers C

- Empty rip-rap and other large and b... damaging your tailgate with an addi...
- Remove brush without laying tailgate... damaging and dangerous process

SNOW HENKE

Complete Snow Solutions include:

- Hitch Systems, Bumper-to-Frame or Custom
- Snow Plows: FVX, One-Way, Power Reversible, V-Plow, or Down Pressure
- Snow Wings, Direct Hydraulic or Cable Benching
- Underchassis Scraper, Reversible or Fixed
- Stainless Steel Tailgate Spreader, 6" or 9"

ICE

Designed by:

J-Craft Super Spreader

The reliable, efficient and heavy-duty Super Spreader from J-Craft was specifically designed to meet the highest demands for performance and dependability.

- Easy access trough, complete clean out
- Prevent material hang ups with tapered trough
- Added strength with boxed in top cover

SUPER SPREADER	9" AUGER	6" AUGER
Height (with spinner)	35.50"	35.25"
Height (without spinner)	22.12"	21.88"
Width (with spinner)	23"	23.75"
Width (without spinner)	22"	22"
Overall length (approx.)	96"	96"
Unit weight (approx.)	640#	615#
Spinner diameter	18"	18"
Trough material	7ga Stainless	7ga Stainless
End plates	1/4" Stainless	1/4" Stainless
Auger Drive	Direct Drive	Direct Drive
Auger Material	3/8" AR	3/8" AR

This Patent-Pending Design is Backed by a 2-Year Warranty!

Full opening bottom trough hinged on body side for accessibility and complete clean out.

Direct drive design minimizes maintenance and allows independent control of auger and spinner.

Fully tapered trough eliminates all flat surfaces preventing material hang ups. The boxed in top cover adds strength.

HYDRAULICS

SSC6100

CAN Bus Spreader Control System

The SSC6100 is a fully integrated plow and spreader control that interfaces a world of advanced communications with your winter maintenance operations. A remote-mounted 7" color display screen offers operator comfort and seamless integration. System includes the Patrol Commander Ultra control arm for medium to heavy duty plow trucks. Enjoy single-handed control over all plow and spreader functions with infinite speed control of up to nine operations.

VT 35

Integrated Valve and Reservoir Tank Assembly

The VT series assemblies combine a tank and a valve enclosure in one. All components under cover; valve, tank, filter, breather, sensors, electrical connections and hose and fittings.

DATA Commander

PreCise Mobile Resource Management System

The Data Commander goes way beyond other AVL/GPS systems. Truck mounted unit integrates all vehicle and storm data collected from the SSC6100 or SSC5100 spreader controls. Transmits via cellular and or a Wi-Fi unit at your garage. Data is stored and accessed via a secure internet site.

VariTech Industries

Anti-Icing and De-Icing Systems

Add an effective anti and de-icing program to your snow fighting regimen. From our new automated brine production system, the Brine Boss to transfer, storage systems and application systems, we offer a complete range of products for all truck sizes.
